Dumba Hakram aka **DJ KASH PRO**
is a ugandan based performer born on 11/11/2000

The come up

I started deejaying as a hobby in school and later joined Talent Walls Ltd in 2020 where am currently advancing my Djing with the aim to become a professional at the craft.

Being recognized as the trendiest and most promising young dj by media houses, events managers & club nights hosts and a couple of influential socialites has helped me achieve my dream positioned me to local and international

Experience

I have performed at several big festivals and shows around Uganda Including Nyege Nyege Festival 2022, Club dome shows, Smirnoff experience, UBL product activations and as well at shows hosting international music acts.

In the same year I did my first international tour in UAE alongside a few Ugandan artist performing in multiple venues and these where all successful.

I've also garnered quite an experience in radio imaging, voice over and jingles production and earlier this year (2023) I took a music production course with AXTRA NATION a music label owned by renowned producer Artin On The Beat and graduating as a certified professional music producer.

Doing more global tours, international collaboration with artists and representing Uganda at a global level in the entertainment industry, music projects with prominent musicians are in the pipeline thanks to Talent Walls Ltd.

The year 2023 still has a lot to offer with lined booking for gigs in the Uk, Turkey and South Africa coming up the the second half of the year.
